INDEX TO VOLUME 129—AUTHORS

Abraham, William M., 198
Abrams, William R., 735
Absher, Marlene, 125
Adamson, Ian Y. R., 130
Adler, Kenneth B., 311
Aelony, Yossef, 648
Agarwal, Mahendra K., 844
Ahmed, Tahir, 198
Ahrens, Richard C., 903
Aizawa, H., 288
Albert, Richard K., 106
Alberti, Rebecca R., 629
Algerian Working Group/British Medical Research Council, 921
Allen, Christopher J., 645
Alling, David, 62
Alpert, Stephen E., 66, 288
Altiere, Ralph J., 881
Altman, Leonard C., 106, 964
Aluoch, Joseph A., 915
Amouroux, J., 938
Anch, A. Michael, 1023
Andelin, John B., 507
Angelici, Elena, 1014
Armour, C. L., 907
Ansbacher, Linda E., 507
Anthonisen, N. R., 3, 198
Aoki, T., 465
Arnup, M. E., 3, 198
Askin, Frederic, 503
Aubier, Michel, 396
Ayars, Garrison H., 964
Bahous, Joudy, 216
Bailey, Ronald M., 234
Bailey, William C., 510
Baker, Richard W., 538
Barlow, Peter B., 361
Baron, Robert B., 439
Bartlett, Donald, Jr., 247
Barton, Randall W., 279
Bashey, Reza I., 767
Baskerville, Jon, 723
Bass, John B., Jr., 510
Bates, D. V., 879
Battesti, J. P., 938
Baughman, Robert P., 676
Beaty, T. H., 660
Beck, Gerald J., 523
Beck, Gustave J., 343, 510
Becklake, Margaret R., S96
Bencowitz, Harold Z., 780
Berger, Harvey J., 682
Berman, Leslie B., S81
Berthon-Jones, M., 27
Bhagat, Rajesh G., 221
Bitterman, Peter B., 168
Blackman, Raymond S., 264
Bladier, D., 938
Bleecker, Eugene R., 251
Biles, B., 985
Block, A. Jay, 230
Bobey, David G., 614
Bonham, Ann C., 903
Borgia, Julian F., S68
Bosken, Carol H., 676
Boucher, R., 12
Bourdarias, Jean-Pierre, 135
Bourque, Linda B., 891
Boushey, H. A., 211
Bowes, Glenn, 45
Bradley, Douglas, 648
Bradsher, Robert W., 430
Brain, Joseph D., 823
Braitman, Leonard, 1006
Brancatisano, T., 33
Brent, Bruce N., 682
Brent, Patricia L., 361
Brienza, L. Tarry, 1025
Britt, E. James, 251
Brody, Arnold R., 301
Brooks, Almena H., 361
Brooks, Stuart M., 296, 952
Brouillette, Robert T., 696
Brown, Harvey V., S63
Brown, M. J., 409
Bruce, Robert A., S28, S41
Brun-Buisson, C., 39
Bryan, A. Charles, 209, 355, 552
Bryan, Charles S., 668
Buckhold, Delwin K., 979
Buczko, G. B., 12, 15
Bukowskyj, Maria, 672
Burgess, K. R., 687
Burki, Nausherwan K., 225, 329, 538
Burnett, David, 473
Burrows, B., 8
Bye, Peter T. P., 27, S88
Bylund-Fellenius, Ann-Christin, S10, S65
Cohen, B. H., 660
Calore, James D., 155
Campbell, E. J. Moran, 388
Campbell, G. Douglas, 974
Canham, E. Michael, 92
Carlone, Stefano, 1014
Carson, A., 952
Cartier, André, 216
Catanese, Anthony, 155
Catanzaro, Antonino, 485
Causon, R., 409
Ceuppens, Jan L., 563
Chan, N., 907
Chang, Jui C., 72
Chang, Ling Yi, 301
Chapman, J. S., 528
Chaube, C. K., 1016
Chen, Victor, 979
Chichester, Clinton O., 619
Christiansen, Thomas G., 155
Clark, Mark C., 633
Clark, Virginia A., 891
Cloutier, Michelle M., 284
Coalson, Jacqueline J., 974
Cockcroft, Donald W., 240
Cole, Philip, 351
Coleman, Diana Lewis, 491, 648
Colten, Harvey R., 66
Conway, William A., 244
Cooke, Nigel T., 460
Cooney, T. P., 719
Cooper, Dan M., S47
Cooper, Kevin R., 629
Corwin, R. William, 933
Costabel, Ulrich, 343
Cotton, David J., 240, 403
Coulson, Anne H., 533, 891
Crapo, James D., 301
Craven, Donald E., 625
Crawford, John M., 827
Cresson, David H., 503
Cromwell, O., 409
Cross, Floy S., 573
Crystal, Ronald G., 168, 343, 850, S76
Curtis, Linda N., 816
Cushley, M. J., 380
Daniele, Ronald P., 767
Dankner, Rand E., 1031
Darbyshire, Janet H., 915
Darioli, R., 385
Dauber, James H., 767
Dautzenberg, Bertrand, 494
Davies, Scott F., 317, 343, 510
Davis, Birgitta, 101
Davis, J. M. G., 528
Davis, James A., S90
Davis, Pamela B., 911
Day, A., 12
de Boeck, Christiane, 182
Debre, Patrice, 494
Dejaegher, Philippe, 631
Del Bono, Elizabeth A., 375
Delfino, Massimo, 1014
Demedts, Maurits, 563, 631
Dempsey, J. A., S31
DeRemee, Richard A., 343
Dershaw, Bruce, 1006
Detels, Roger, 533, 891
Dhingra, S., 497
Diamond, Lee A., 876
Diamond, Louis, 112, 881
Dickerson, Dina, 557
Dijkman, Joop H., 959
Dixon, Gerald F., 1028
Dockery, D. W., 366
Dodd, D. S., 33
Dodek, Peter M., 491, 648
Dolly, F. Ray, 230
Donnerberg, Roy L., 1028
Donovan, Richard M., 149
Dosman, James A., 240
Douglas, A. N., 528
Doyle, Theresa, 964
Drazen, Jeffrey M., 54, 333, 790
du Souich, Patrick, 762
Edwards, Eric A., 915
Eggleston, Peyton A., 207
Elander, Anna, S65
Elias, Jack A., 767
Ellard, G. A., 58
Ellis, C. G., S6
Elwood, R. Kevin, 143
Engel, L. A., 33
England, Sandra J., 209, 552
Epler, Gary, 375

Acetylator phenotype and hepatic toxicity, lack of relationship between, in 3,000 South Indian patients during treatment with isoniazid for tuberculosis, 58
Acetyltransferase, aminoglycoside, and plasmids, presence of, in *Mycobacterium fortuitum*, 614
Acidosis, metabolic, influence of, on theophylline kinetics in conscious rabbit, 762
Acquired immune deficiency syndrome
  correlation between serial pulmonary function tests and fiberoptic bronchoscopy in patients with *Pneumocystis carinii* pneumonia and (concise clinical study), 491
  diagnosis of *Pneumocystis carinii* pneumonia in patients with, using subsegmental bronchoalveolar lavage, 929
Actin content of normal and of bleomycin-fibrotic rat lung, 311
Adenosine-induced bronchoconstriction in asthma, 380
Adult respiratory distress syndrome, granulocyte adherence in pulmonary and systemic arterial blood samples from patients with, 798
Aerosol(s)
  cadmium chloride, alterations in collagen biosynthesis and metallothionein in lungs of rats exposed to, 619
  inhaled, alteration in osmolarity of, causes bronchoconstriction and cough, 211
  inhaler, foreign body aspiration associated with use of (case report), 1014
  respirable, effects on rat lungs of mixtures of oxidant air pollutants (ozone or nitrogen dioxide) and (correspondence), 881
Aging and cardiopulmonary gas transport, S68
Air
  cold, reducing ventilatory response to carbon dioxide by breathing, 687
  quality, indoor, and pulmonary function, effect of kerosene heater emissions on (Note), 629
Air-flow obstruction
  chronic
    detrimental effects of hydralazine in patients with, 388
    gas exchange in, S81
    influence of head-dependent position on lung volume and oxygen saturation in, 101
    overestimation of single-breath carbon monoxide diffusing capacity in patients with, 403
  rapidly progressive, in marrow transplant recipients (case report), 641
  severe chronic, chest wall mechanics during, 33
Airway(s)
  and autonomic reactivity in obligate heterozygotes for cystic fibrosis, 911
  cooling, does it cause asthma? 691
  disease, small, detection of, 989
  function
    comparative effects of glycopyrrolate and atrophine inhalation on (Note), 871
    upper, in burn patients, 251
  human, effects of corticosteroids on mucous glycoprotein secretion from, 62
  hyperresponsiveness and changes in cell counts in bronchoalveolar lavage fluid after ozone exposure in dogs, 288
  macrophages, importance of fixation method in, 823
  morphology, upper, in patients with idiopathic obstructive sleep apnea, 355
  mucosal permeability, increased, of smokers, 143
  obstruction, chronic, locating community residents with, 361
  quantitative studies of argyrophilic APUD cells in, 477
  reactivity to histamine, human, comparison of *in vivo* and *in vitro*, 907
  responsiveness
    to inhaled methacholine
      combined effect of cigarette smoking and allergic rhinitis on, 15
      effects of cigarette smoking and short-term smoking cessation on, 12
    in population sample of adults and children, 898
  segmental, tracheobronchial gland profiles in, 985
  smooth muscle, hyperreactive, responsiveness of, after inhalation of toluene diisocyanate vapors, 296
  and vascular
    exchangeable lung water spaces, effect of acute hypoxia on, in dogs, 772
    pressures, platelet-activating factor raises, and induces edema in lungs perfused with platelet-free solution, 742
Alcohol, selective reduction of genioglossal muscle activity by, in normal subjects, 247
Algerian Sahara, controlled clinical trial comparing 6-month and 12-month regimens in treatment of pulmonary tuberculosis in, 921
Alpha$_1$-
  antichymotrypsin, evidence that alveolar macrophages can synthesize and secrete, 473
  antiprotease, demonstration of free elastolytic metalloenzyme in human lung lavage fluid and its relationship to, 943
  proteinase inhibitor, ceruloplasmin prevents suppression of, in cigarette smokers, 258
Altitude, high, emphysema mortality is increased in Colorado residents at (correspondence), 648
Alveolar
  cells, type II, paraquat-induced injury of, 995
  damage, diffuse, effect of bacterial superinfection on lung function after, 974
Alveolar macrophages. *See* Macrophages
Alveolitis
  of pulmonary sarcoidosis (correspondence), 343
  role of, in modulating the development of fibrosis, 268
Alveolobronchograms, selective, and pulmonary function tests, relation between, in patients with COPD, 465
American pulmonary physicians and how they treat cigarette dependency (concise clinical study), 1010
Amiloride applied to frog palate *in vitro*, response of mucous cells to stimulation by, 816
Aminoglycoside acetyltransferase and plasmids, presence of, in *Mycobacterium fortuitum*, 614
Aminophylline
  effects of, on diaphragmatic fatigue during acute respiratory failure, 396
  improves contractility of fatigued canine diaphragm, 118
Amphotericin B and new polyene antifungal drug SCH 28191, comparison of, in experimental murine aspergillosis, 292
Androgen administration, exogenous, induction of obstructive sleep apnea syndrome by (case report), 1023
Angiotensin-converting enzyme
  activity, elevated, nonspecificity of, in bronchoalveolar lavage fluid from high permeability lung edema state (Note), 499
  levels, serum, gallium-67 scanning, and bronchoalveolar lavage in pulmonary sarcoidosis, 676
Anion permeant, absence of, causes cough, 211
Antibiotics, uptake of, by human alveolar macrophages, 933
Antigen
  Ia-like (DR), expression of, on human alveolar macrophages stimulated by bronchoalveolar lavage, 419
  MPB70, unique antigen of *M. bovis* BCG, 444

Apnea(s)
during sleep, night-to-night consistency of, 244
idiopathic obstructive sleep, upper airway morphology in patients with, 355
obstructive sleep
drug therapy for (correspondence), 648
electromyographic study of accessory muscles of respiration in children with, 696
impaired detection of added inspiratory resistance in patients with, 45
APUD cells, argyrophilic, quantitative studies of, in airways, 477
Asbestos-
cement
factory in Ontario, mortality among employees of, 754
workers, radiographic abnormalities among, 17
-induced lesions, pulmonary macrophage accumulation and, at sites of fiber deposition, 301
Asbestosis, crackles in early detection of, 375
Ascorbic acid, lack of effect of, on theophylline clearance, 672
Aspergillosis, experimental murine, comparison of amphotericin B and new polyene antifungal drug SCH 28191, 292
Aspergillus niger, pulmonary oxalosis caused by (case report), 501
Aspiration
foreign body, associated with use of aerosol inhaler (case report, 1025
transbronchial needle, of peripheral masses (correspondence), 1031
Aspirin desensitization in aspirin-sensitive asthma, failure to maintain a desensitized state during (correspondence), 1031
Asthma
adenosine-induced bronchoconstriction in, 380
aspirin-sensitive, failure to maintain desensitized state during prolonged aspirin desensitization (correspondence), 1031
asymptomatic, adults with, effect of subcutaneously administered terbutaline on serum potassium in (concise clinical study), 329
bronchial, mast cells in bronchoalveolar lumen of patients with, 1000
children with, comparison of responsiveness to methacholine, histamine, and exercise in subgroups of, 221
exercise-induced, neutrophil chemotactic activity and histamine in atopic and nonatopic subjects after, 409
immunotherapy for, a reevaluation of (editorial), 657
induced
mechanical load and inspiratory muscle action during (correspondence), 881
by suggestion and caused by airway cooling, 691
is it an epithelial disease? (editorial), 207
patients with
comparative effects of sulfur dioxide exposures at 5° and 22° C in exercising, 234
exercise performance in, S84
subjects with, effects of bronchodilation on magnitude estimation of added resistive loads, in, 225
use of space to facilitate inhaled corticosteroid treatment of, 723
Atropine and glycopyrrolate inhalation, comparative effect on normal airway function of (Note), 871
Autacoids and autonomic drugs, hyperresponsiveness to, in lung parenchymal strips from sensitized guinea pigs, 948 (correspondence), 881
Autonomic dysfunction, abnormal respiratory pattern generation during sleep in patients with (correspondence), 343, 510
BCG, MPB70, a unique antigen of *M. bovis*, 444
Bacilli, acid-fast, in sputum smears of patients with pulmonary tuberculosis, 264
Basophils of allergic subjects, deuterium-oxide-induced histamine release from, 592
Blastomycosis, pulmonary or extrapulmonary, development of specific immunity in patients with, 430
Bleomycin
-fibrotic rat lung, actin content of, 311
-induced pulmonary fibrosis, comparison of lymphocyte populations in lung tissue and bronchoalveolar lavage fluid of rats during development of, 279
injury, neutrophil chemotactic activity generation by alveolar macrophages after, 485
-treated rats, characteristics of cultured lung fibroblasts from, 125
Blood gases, sleep, and ventilation, effect of oxygen on, in cystic fibrosis, 712
Branhamella catarrhalis pneumonia and immunoglobulin abnormalities, new association of (case report), 876
Breathing, chemical and behavioral control of, in adult twins, 703
Bronchiolotis, obliterative, and chronic graft-versus-host disease, possible association between, in rapidly progressive air-flow obstruction in marrow transplant recipients (case report), 641
Bronchitis, chronic
correlation of morphologic findings in sputum production and flow rates in, 719
nonallergic bronchial hyperexcitability in, 216
SO_2-induced, morphologic correlation of physiologic changes caused by, in dogs, 790
Bronchoconstriction
adenosine-induced, in asthma, 380
allergic, modification of, by a calcium antagonist (correspondence), 198, 648
alteration in osmolarity of inhaled aerosols causes, 211
Bronchodilation, effects of, on magnitude estimation of added resistive loads in asthmatics, 225
Bronchodilator(s)
activity, *in vivo*, of vasoactive intestinal peptide in cats (correspondence), 881
aerosolized, method for comparing peak intensity and duration of action of, using bronchoprovocation with methacholine, 903
anticholinergic, antimuscarinic (state of the art), 856
Broncholithiasis, advances in diagnosis and treatment of (clinical commentary), 1028
Bronchoscopy, fiberoptic, and serial pulmonary function tests, correlation between, in patients with *Pneumocystis carinii* pneumonia and acquired immune deficiency syndrome (concise clinical study), 491
Burn patients, upper airway function in, 251
Calcium antagonist, modification of allergic bronchoconstriction by (correspondence), 198
Cadmium chloride aerosol, alterations in collagen biosynthesis and metallothionein in lungs of rats exposed to, 619
Carbon
dioxide
response curves, reproducibility of, with 10 minutes separating each rebreathing test, 23
transport during high-frequency ventilation, influence of endotracheal tube on, 54
monoxide diffusing capacity, single-breath, overestimation of, in patients with air-flow obstruction, 403
Carcinoma, renal cell, bilateral diaphragmatic paralysis as possible paraneoplastic syndrome from (case report), 507
Catheterization, pulmonary artery, is it necesssary for diagnosis of pulmonary edema? (concise clinical study), 1006
Cats, *in vivo* bronchodilator activity of vasoactive intestinal peptide in (correspondence), 881
Cavitation in bacteremic pneumococcal pneumonia and role of mixed infection with anaerobic bacteria, 317
Cell(s)
counts, changes in, in bronchoalveolar lavage fluid after ozone exposure in dogs, 288

mast, in bronchoalveolar lumen of patients with bronchial asthma, 1000
subsets, T, alveolar, in pulmonary sarcoidosis, 563
type II alveolar, paraquat-induced injury of, 995
Ceruloplasmin increases serum concentration and impaired antioxidant activity in cigarette smokers, 258
Chemoreception and exercise, S31
Chemotherapy
experimental, in chronic *Mycobacterium avium-intracellulare* infection in mice, 453
shortest possible acceptable effective, in ambulatory patients with pulmonary tuberculosis (Note), 1016
Chest
physiotherapy versus cough in cystic fibrosis (concise clinical study), 182
wall
compression, high-frequency, 510 (correspondence), 343
mechanics during exercise in patients with severe chronic airflow obstruction, 33
Children
airway responsiveness in population sample of adults and, 898
asthmatic, comparison of responsiveness to methacholine, histamine, and exercise in subgroups of, 221
gas exchange response to exercise in, S47
lung function in, relationship between parental smoking and, 891
maximal respiratory pressures in (Note), 873
with obstructive sleep apnea, electromyographic study of accessory muscles of respiration in, 696
passive
respiratory mechanics in, 552
smoking, gas cooking, and respiratory health of, in six cities, 366
young, partial expiratory flow-volume curves in, 557
Chloramphenicol influx, effects of cAMP, furosemide, and ouabain on, in rat, 284
Cigarette dependency, treatment of, and what American pulmonary physicians do about it (concise clinical study), 1010
Cigarettes. *See* Smokers and Smoking
Cilia, defective, associated with development of bronchopulmonary dysplasia (case report), 190
Cirrhosis and primary pulmonary hypertension (correspondence), 881
Coal workers, emphysema and dust exposure in, 528
Collagen biosynthesis and metallothionein alterations in, in lung of rats acutely exposed to cadmium chloride aerosol, 619
Colorado residents at high altitude, emphysema mortality is increased in (correspondence), 648
Complement, fifth component of, is not required for clearance of *Staphylococcus aureus*, 597

primary pulmonary hypertension, clinical patterns in (case report), 194
Family aggregation of pulmonary function measurements, 8
Fatty acid, free, and triglyceride content of *Mycobacterium avium* cultured under different growth conditions, 96
Fenoterol, inhaled, tolerance to (Note), 1014
Fibroblasts
cultured lung, characteristics of, from bleomycin-treated rats, 125
proliferation, lung, regulation of, by alveolar macrophages in experimental silicosis, 767
Fibrosis
bleomycin-induced
pulmonary, comparison of lymphocyte populations in lung tissue and bronchoalveolar lavage fluid of rats during development of, 279
rat lung, actin content of, 311
cystic
autonomic and airway reactivity in obligate heterozygotes for, 911
cough versus chest physiotherapy in (concise clinical study), 182
effect of oxygen on sleep, blood gases, and ventilation in, 712
oxygen saturation during exercise in, 708
paraquat-induced pulmonary, role of alveolitis in modulating development of, 168
Flow-volume curves, partial expiratory, in young children, 557
Flurazepam ingestion, does it affect breathing and oxygenation during sleep in patients with COPD? 230
Frog palate, response of mucous cells to stimulation by amiloride applied to, *in vitro*, 816
Functional residual capacity, elevated, maintenance of, in newborn

and paradox of REM sleep (editorial), 209
Furosemide, effects of, on transtracheally administered tetracycline and chloramphenicol influx in rat, 284
Gas
cooking, passive smoking, and respiratory health of children in six cities, 366
exchange
in chronic air-flow obstruction, S81
pulmonary, during exercise, normal values for, S44
response to exercise in children, S47
and ventilation during exercise in severe chronic heart failure, S63
transport, cardiopulmonary
and aging, S68
specific defects in, S57
Gastroesophageal reflux and chronic respiratory disease (clinical commentary), 645
Glycoprotein secretion, mucous, from human airways *in vitro*, effects of corticosteroids on, 62
Glycopyrrolate and atropine inhalation, comparative effects on normal airway function of (Note), 871
Graft-versus-host disease, chronic, and obliterative bronchiolitis, possible association between, in rapidly progressive air-flow obstruction in marrow transplant recipients (case report), 641
Granulocyte(s)
adherence in pulmonary and systemic arterial blood samples from patients with ARDS, 798
labeled with indium-111, *in vivo* behavior of, in canine model of pneumococcal pneumonia, 602
recruitment, early pulmonary, in response to *Streptococcus pneumoniae*, 87
Granuloma, pulmonary eosinophilic, 25-year follow-up (case report, 503
Guinea pig(s)
bronchoalveolar macrophages, synthesis of complement by, and effect of acute and chronic infection with *Pseudomonas aeruginosa*, 66
-derived allergens, clinicoimmunologic studies, characterization, airborne quantitation, and size distribution, 844
sensitized, hyperresponsiveness to autacoids and autonomic drugs in lung parenchymal strips from, 948
(correspondence), 881
Hamsters, emphysema and bronchial secretory cell metaplasia induced in, by human neutrophil products, 155
Heart failure
chronic, exercise testing in evaluation of patient with, S60
severe chronic, ventilation and gas exchange during, S63
Hemodialysis, mechanisms of arterial hypoxemia during, 780
Hemoglobin concentration and exercise capacity, S72
Heterozygotes, obligate, autonomic and airway reactivity in, for cystic fibrosis, 911
Histamine
comparison of *in vivo* and *in vitro* human airway reactivity to, 907
methacholine, and exercise, comparison of responsiveness to, in subgroups of asthmatics, 221
and neutrophil chemotactic activity, in atopic and nonatopic subjects after exercise-induced asthma, 90
release, deuterium-oxide-induced, from basophils, in allergic subjects, 592
Hydralazine
detrimental effects of, in patients with chronic air-flow obstruction and pulmonary hypertension, 388
physiologic effects of, in relationship between oxygen uptake and oxygen transport in stable patients with COPD, 682
Hypercapnia, influence of, on theophylline kinetics in conscious rabbit, 762
Hyperexcitability, nonallergic bronchial, in chronic bronchitis, 216
Hyperinflation (editorial), 1
Hyperoxia, ozone-induced tolerance to, in rats, 425
Hyperresponsiveness to autacoids and autonomic drugs in lung parenchymal strips from sensitized guinea pigs, 948
Hypertension
familial primary pulmonary, clinical patterns in (case report), 194
precapillary pulmonary, altered pulmonary function in (correspondence), 198
primary pulmonary, and cirrhosis (correspondence), 881
pulmonary
detrimental effects of hydralazine in patients with, 388
Staphylococcus aureus and human platelets cause, in isolated saline-perfused rabbit lungs, 92
Hypomagnesemia and respiratory muscle power (concise clinical study), 497
Hypoventilation
life-threatening, in kyphoscoliosis (case report), 185
mechanically controlled, in status asthmaticus, 385
Hypoxemia
arterial, mechanisms of, during hemodialysis, 780
influence of, on theophylline kinetics in conscious rabbit, 762
postural, in postpneumonectomy patient (case report), 1021
Hypoxia, effect of acute, on airway and vascular exchangeable lung water spaces in dogs, 772
Immunity, specific, development of, in patients with pulmonary or extrapulmonary blastomycosis, 430
Immunocompromised patients with tuberculosis, management of (concise clinical study), 494
Immunoglobulin
abnormalities and *Branhamella catarrhalis* pneumonia, new association of (case report), 876
G subclasses, receptors for, on human alveolar macrophages, 413
Immunotherapy for asthma, a reevaluation (editorial), 657
Indium-111-labeled granulocytes, *in vivo* behavior of, in canine model of pneumococcal pneumonia, 602
Infants, muscle pressure and flow during expiration in, 49
Infection
mixed anaerobic bacterial, cavitation in bacteremic pneumococcal pneumonia and role of, 317
with *Pseudomonas aeruginosa*, acute and chronic, synthesis of complement by guinea pig bronchoalveolar macrophages and effect of, 66
Inflammation
in the lung, leukotriene B_4 production by human alveolar macrophages as potential mechanisms for amplifying, 106
role of, in morphologic correlation of physiologic changes caused by SO_2-induced bronchitis in dogs, 790
Interleukin-1, release of, by alveolar macrophages of patients with active pulmonary sarcoidosis, 569
Isoniazid
lack of relationship between hepatic toxicity and acetylator phenotype in 3,000 South Indian patients during treatment with, for tuberculosis, 58
rifampin therapy, six-months, for pulmonary tuberculosis, 573
Isoproterenol improves contractility of fatigued canine diaphragm, 118
Kenya, study of case-finding for pulmonary tuberculosis in outpatients complaining of chronic cough at district hospitals in, 915
Kerosene heater emission, effect of, on indoor air quality and pulmonary function (Note), 629
Kyphoscoliosis
life-threatening hypoventilation in, and treatment with molded body brace ventilator (case report), 185
secondary, nighttime ventilation improves respiratory failure in, 240
Lambs, immature, respiratory distress syndrome in, 979
Lavage
alveolar, bronchial irrigation, and diagnosis of *Pneumocystis* (correspondence), 648
bronchoalveolar

in eosinophilic pneumonia before and during corticosteroid therapy (Note), 631
expression of Ia-like (DR) antigen on human alveolar macrophages isolated by, 419
gallium-67 scanning, and serum angiotensin-converting enzyme levels, comparison of, in pulmonary sarcoidosis, 676
use of, in staging of patients with pulmonary sarcoidosis (correspondence), 343
fluid
bronchoalveolar
airway hyperresponsiveness and changes in cell counts in, after ozone exposure in dogs, 288
nonspecificity of elevated angiotension-converting enzyme activity in, from high permeability lung edema states (Note), 499
lymphocyte populations in, during development of bleomycin-induced pulmonary fibrosis, 279
human lung, demonstration of free elastolytic metalloenzyme in, and its relationship to alpha$_1$-antiprotease, 943
samples, bronchoalveolar, quantitation of leukocytes in, from rats after intravascular injection of endotoxin, 72
subsegmental bronchoalveolar, diagnosis of *Pneumocystis carinii* pneumonia in patients with AIDS using, 929
Leukocyte(s)
quantitation of, in bronchoalveolar lavage samples from rats after intravascular infection of endotoxin, 72
recruitment, polymorphonuclear, role of C5 in, in response to *Streptococcus pneumoniae*, 82
Leukotriene
B_4 production by human alveolar macrophages, 106
D_4 metabolism of, by porcine alveolar macrophages, 274
Loads
added resistive, effects of bronchodilation on magnitude estimation of, in asthmatics, 225
external resistive, respiratory response to, during vagal blockade in awake dogs, 811
mechanical, and inspiratory muscle action during induced asthma (correspondence), 881
Lumen, bronchoalveolar, mast cells in, of patients with bronchial asthma, 1000
Lung(s)
developing fetal rat, sex-related differences in cellular composition and surfactant synthesis of, 130
disease
inflammatory, proteinase inhibitory function in, 735
interstitial
and destructive, exercise testing in patients with, S76
isolated bilateral diaphragmatic paresis with, an unusual presentation of dermatomyositis (case report), 337
oxygenation during sleep in patients with, 27
function
abnormalities, pattern of, in cotton textile workers, 523
children's relationship between parental smoking and, 891
after diffuse alveolar damage, effect of bacterial superinfection on, 974
functional and morphologic changes in, after single intratracheal instillation of silica, 833
growth, human, in late gestation and in the neonate, 607
immature lamb, antenatal accelerated conditioning of, to prevent respiratory distress syndrome, 979
inflammation in, leukotriene B_4 production by human alveolar macrophages as potential mechanism for amplifying, 106
inflation during high-frequency ventilation (Note), 333
injury, in rats, repair of oxygen-induced, role of ornithine decarboxylase and polyamines in, 174
isolated saline-perfused rabbit, *Staphylococcus aureus* and human platelets cause pulmonary hypertension and thromboxane generation in, 92
parenchymal strips from sensitized guinea pigs, hyperresponsiveness to autacoids and autonomic drugs in, 948 (correspondence), 881
perfused with platelet-free solution, platelet-activating factor raises airway and vascular pressures and induced edema in, 742
rat
acutely or repeatedly exposed to cadmium chloride aerosol, alterations in collagen biosynthesis and metallothionein in, 619
effects on, of mixtures of oxidant air pollutants and respirable aerosols (correspondence), 881
lymphocyte subpopulations in, 827
tissue, comparison of lymphocyte populations in, during development of bleomycin-induced fibrosis, 279
volume and oxygen saturation, influence of head-dependent position on, in chronic air-flow obstruction, 101
Lymphocyte
populations, comparison of, in lung tissue and bronchoalveolar lavage fluid of rats during development of bleomycin-induced fibrosis, 279
subpopulations in rat lungs and Peyer's patches, 827
Lysozyme content, comparison of lavage and intrapulmonary alveolar macrophages with respect to, in rat, 149
Macrophages
airway, importance of fixation method in, 823
alveolar
comparison of lavaged and intrapulmonary, with respect to lysozyme content and size in rat, 149
expression of Ia-like (DR) antigen on human, isolated by bronchoalveolar lavage, 419
heterogeneity of immunologic function among subfractions of normal rat, 474
human pulmonary, cryopreservation of, 269
leukotriene B_4 production by, 106
metabolism of leukotriene D_4 by porcine, 274
neutrophil chemotactic activity generation by, after bleomycin injury, 485
normal, disruption of phagosomal membranes of, by H37Rv strain of *M. tuberculosis*, 322
receptors for human IgG subclasses on, 413
regulation of lung fibroblast proliferation by, in experimental silicosis, 767
release of interleukin-1 by, in patients with active pulmonary sarcoidosis, 569
synthesize and secrete alpha$_1$-antichymotrypsin, 473
uptake of antibiotics by human, 933
guinea pig bronchoalveolar, synthesis of complement by, and effect of acute and chronic infection with *Pseudomonas aeruginosa*, 66
human pulmonary alveolar, cryopreservation of, 269
pulmonary, accumulation of, and asbestos-induced lesions at sites of fiber deposition, 301
rabbit pulmonary, alterations in antibacterial properties of, after exposure to wood smoke, 76
Marrow transplant recipients, rapidly progressive air-flow obstruction in (case report), 641
Mast cells in bronchoalveolar lumen of patients with bronchial asthma, 1000
Metalloenzyme, free elastolytic, demonstration of, in lung lavage fluid and its relationship to alpha$_1$-antiprotease, 943
Metallothionein and collagen biosynthesis, alterations in, in lungs of rats acutely or repeatedly exposed to cadmium chloride aerosol, 619
Metaplasia, bronchial secretory cell, and emphysema induced in hamsters by human neutrophil products, 155
Methacholine
histamine, and exercise, comparison of responsiveness to, in subgroups of asthmatic children, 221
inhaled
combined effect of cigarette smoking and allergic rhinitis

on airway responsiveness to, 15
effects of cigarette smoking and short-term cessation on airway responsiveness to, 12
method for comparing peak intensity and duration of action of aerosolized bronchodilators using bronchoprovocation with, 903
Methylprednisolone-increased toxicity of oxygen in mice, 805
Mice
methylprednisolone-increased toxicity of oxygen in, 805
tight-skin, hereditary emphysema in, 850
Mucociliary transport, regulation of, 816
Muscle
action, inspiratory, and mechanical load during induced asthma (correspondence), 881
activity, genioglossal, selective reduction of, by alcohol in normal subjects, 247
contracted skeletal, microvascular geometry in relation to modeling oxygen transport in, S6
function, sternomastoid, and fatigue in normal subjects and in patients with COPD, 460
hyperreactive airway smooth, responsiveness of, after inhalation of toluene diisocyanate vapors, 296
power, respiratory, and hypomagnesemia (concise clinical study), 497
pressure and flow during expiration in infants, 49
respiration during exercise in the dyspneic patient, S10
respiratory, electromyographic study of accessory, in children with obstructive sleep apnea, 696
Mycobacterium
avium, free fatty acid and triglyceride content of, cultured under different growth conditions, 96
avium-intracellulare infection, chronic experimental chemotherapy in, of mice, 453
bovis BCG, MPB70, a unique antigen of, 444
fortuitum, presence of aminoglycoside acetyltransferase and plasmids in, 614
nonchromogenicum, necessity of differentiating, from *M. terrae* and *M. triviale* (correspondence), 881
tuberculosis H37Rv strain, disruption of phagosomal membranes of normal alveolar macrophages by, 322
xenopi, role of, in human disease, 435
Nasopharyngoscopy, correlation of flow-volume curves and, in upper airway function in burn patients, 251
Neonate, human lung growth in late gestation and in the, 607
Neutrophil
chemotactic activity
generation by alveolar macrophages after bleomycin injury, 485
and histamine in atopic and nonatopic subjects after exercise-induced asthma, 409
injurious effect of, on pneumocytes *in vitro*, 964
products, human, emphysema and bronchial secretory cell metaplasia induced in hamsters by, 155
Newborn
maintenance of an elevated FRC in (editorial), 209
passive respiratory mechanics in, 552
Nicotine, role of, in pathogenesis of pulmonary emphysema, 112
Nifedipine
attenuates acute hypoxic pulmonary vasoconstriction in awake piglets, 785
inhibits hypoxic pulmonary vasoconstriction during rest and exercise in patient with COPD, 544
Nitrogen dioxide and respirable aerosols, synergistic effects on rat lungs of mixture of (correspondence), 881
Nitroprusside, physiologic effects of, in relationship between oxygen uptake and oxygen transport in stable patients with COPD, 682
Obesity
eucapnic morbid, ventilatory relation in, 538
ventilatory stress of exercise in, S90
Ontario asbestos-cement factory, mortality among employees of, 754
Ornithine decarboxylase and polyamines, role of, in repair of oxygen-induced lung injury in rats, 174
Ouabain, effects of, on transtracheally administered tetracycline and chloramphenicol influx in rat, 284
Outpatients complaining of chronic cough, study of case-finding for pulmonary tuberculosis in, at district hospital in Kenya, 915
Oxalosis, pulmonary, caused by *Aspergillus niger* (case report), 501
Oxygen
effect of, on sleep, blood gases, and ventilation in cystic fibrosis, 712
—induced lung injury, repair of, in rats, role of ornithine decarboxylase and polyamines in, 174
methylprednisolone-increased toxicity of, in mice, 805
saturation
during exercise in cystic fibrosis, 708
and lung volume, influence of head-dependent positions on, in chronic air-flow obstruction, 101
transfer, importance of lower respiratory tract in, S76
transport in contracted skeletal muscle, microvascular geometry in relation to modeling, S6
uptake and oxygen transport, relationship between, in stable patients with COPD, 682
whole-body consumption of, and the $\dot{V}o_2$-HR relationship, normal values for, S41
Oxygenation during sleep
does flurazepam ingestion affect breathing and, in patients with COPD? 230
in patients with interstitial lung disease, 27
Ozone
exposure, airway hyperresponsiveness and changes in cell counts in bronchoalveolar lavage fluid after, in dogs, 288
—induced tolerance to hyperoxia in rats, 425
and respirable aerosols, synergistic effects on rat lungs of mixture of (correspondence), 881
Paracoccidioidomycosis in immunosuppressed host (case report), 340
Pancreatitis-induced increase in lung vascular permeability and the protective effect of trasylol, 580
Paralysis, bilateral diaphragmatic, as possible paraneoplastic syndrome from renal cell carcinoma (case report), 507
Paraneoplastic syndrome, bilateral diaphragmatic paralysis as possible, from renal cell carcinoma (case report), 507
Paraquat-induced
injury of type II alveolar cells, 995
pulmonary fibrosis, role of alveolitis in modulating the development of, 168
Paresis, isolated bilateral diaphragmatic, with interstitial lung disease, an unusual presentation of dermatomyositis (case report), 337
Peptide, vasoactive intestinal, *in vivo* bronchodilator activity of, in cats (correspondence), 881
Peru, results of a standard 12-month regimen for treatment of tuberculosis in, 439
Peyer's patches, lymphocyte subpopulations in, 827
Physiology during exercise testing in dyspneic patients, S3
Pigs
alveolar macrophages of, metabolism of leukotriene D_4 by, 274
young, nifedipine attenuates acute hypoxic pulmonary vasoconstriction in, 785
Platelet(s)
—activating factor raises airway and vascular pressures and induces edema in lungs perfused with platelet-free solution, 742
human, and *Staphylococcus aureus* cause pulmonary hypertension and thromboxane generation in isolated saline-perfused rabbit lungs, 92
Pleura and pleural liquid, effect of changing contact surface area

between on turnover of pleural liquid, 481
Pneumoconiosis in workers exposed to silicon carbide (case report), 635
Pneumocystis, alveolar lavage, bronchial irrigation and diagnosis of (correspondence), 648
Pneumocystis carinii pneumonia
and acquired immune deficiency syndrome, correlation between serial pulmonary function tests and fiberoptic bronchoscopy in patients with (concise clinical study), 491
diagnosis of, in patients with acquired immunodeficiency syndrome using subsegmental bronchoalveolar lavage, 929
endogenous Cushing's syndrome complicated by (case report), 188
Pneumocytes, injurious effect of neutrophils on, *in vitro*, 964
Pneumonectomy, postural hypoxemia after (case report), 1021
Pneumonia
acute bacterial, and proteinase inhibitory function, 735
bacteremic nosocomial
nosocomial; analysis of 172 episodes from a single metropolitan area, 668
pneumococcal, cavitation in, and role of mixed infection with anaerobic bacteria, 317
eosinophilic, bronchoalveolar lavage in, before and during corticosteroid therapy (Note), 631
pneumococcal, canine model of, *in vivo* behavior of granulocytes labeled with indium-111 in, 602
Pneumocystis carinii
and acquired immune deficiency syndrome, patients with, correlation between serial pulmonary function tests and fiberoptic bronchoscopy in (concise clinical study), 491
diagnosis of, in patients with AIDS using subsegmental bronchoalveolar lavage, 929
endogenous Cushing's syndrome complicated by (case report), 188
Pneumonitis, interstitial, pathogenesis of, induced by trehalose dimycolate, 840
Polyamines and ornithine decarboxylase, role of, in repair of oxygen-induced lung injury in rats, 174
Posture and nasal patency, 351
Potassium, serum, effect of subcutaneously administered terbutaline on, in asymptomatic asthmatics (concise clinical study), 329
Protease inhibitor, low-molecular-weight bronchial, ELISA for quantitative measurement of, in sputum, 959
Proteinase inhibitory function in inflammatory lung disease, 735
Pseudomonas aeruginosa, effect of acute and chronic infection with, and synthesis of complement by guinea pig bronchoalveolar macrophages, 66
Pulmonary
blood flow, redistribution of, induced by positive end-expiratory pressure and dopamine infusion in acute respiratory failure, 39
disease, chronic obstructive
or not COPD (correspondence), 198
[illegible]ial aspects of ventilatory control in, 3
does flurazepam ingestion affect breathing and oxygenation during sleep in patients with, 230
relationship between oxygen uptake and oxygen transport in stable patients with, 682
relation between selective alveolobronchograms and pulmonary function tests in patients with, 465
sternomastoid muscle function and fatigue in normal subjects and in patients with COPD, 460
structure and function of pulmonary vasculature in mild (correspondence), 1031
two-dimensional echocardiographic assessment of left ventricular function in, 135
UCLA population studies of, 533, 891
function
altered, in precapillary pulmonary hypertension (correspondence), 198
and indoor air quality, effect of kerosene heater emissions on (Note), 629
measurements, family aggregation of, 8
risk factors associated with longitudinal change in, 660
tests
and selective alveolobronchograms, relation between, in patients with COPD, 465
serial, and fiberoptic bronchoscopy, correlation between, in patients with *Pneumocystis carinii* pneumonia (concise clinical study), 491
Rabbit
conscious, influence of hypercapnia and/or hypoxemia and metabolic acidosis on theophylline kinetics in, 762
lungs, isolated saline-perfused, *Staphylococcus aureus* and human platelets cause pulmonary hypertension and thromboxane generation in, 92
pulmonary macrophages exposed to wood smoke, alterations in antibacterial properties of, 76
Radiographic abnormalities among asbestos-cement workers, 17
Radionuclide and hemodynamic study of detrimental effects of hydralazine in patients with chronic air-flow obstruction and pulmonary hypertension, 388
Rat(s)
alveolar macrophages, normal, heterogeneity of immunologic function among subfractions of, 747
bleomycin-treated, characteristics of cultured lung fibroblasts from, 125
comparison of
lavaged and intrapulmonary alveolar macrophages with respect to lysozyme content and size in, 149
lymphocyte populations and bronchoalveolar lavage fluid of, during development of bleomycin-induced pulmonary fibrosis, 279
effects of cAMP, furosemide, and ouabain on transtracheally administered tetracyline and chloramphenicol influx in, 284
exposed to cadmium chloride aerosol, alteration in collagen biosynthesis and metallothionein in lungs of, 619
lungs(s)
effects on, of mixtures of oxidant air pollutants (ozone or nitrogen dioxide) and respirable aerosols (correspondence), 881
fetal, sex-related differences in cellular composition and surfactant synthesis of developing, 130
lymphocyte subpopulations in, 825
quantitation of leukocytes in bronchoalveolar lavage samples from, after intravascular injection of endotoxin, 72
ozone-induced tolerance to hyperoxia in, 425
repair of oxygen-induced lung injury in, role of ornithine decarboxylase and polyamines in, 174
Reserpine prevents formation of lesions during pathogenesis of interstitial pneumonitis induced by trehalose dimycolate, 480
Respiration
coupling of external to internal, S21
muscle, during exercise in the dyspneic patient, S10
Respiratory
disease, chronic, and gastroesophageal reflux (clinical commentary), 645
distress syndrome in immature lambs, 979
failure
acute
effects of aminophylline on diaphragmatic fatigue during, 396
redistribution of pulmonary blood flow induced by positive end-expiratory pressure and dopamine infusion in, 39

nighttime ventilation improves, in secondary kyphoscoliosis, 240
mechanics, passive, in newborns and children, 552
pressure, maximal, in children (Note), 873
quiz 1984 (clinical commentary), 879
tract, lower, importance of, in oxygen transfer, S76
Rhinitis, allergic, and cigarette smoking, combined effect of, on airway responsiveness to inhaled methacholine, 15
Rifampin-isoniazid therapy, six-month, for pulmonary tuberculosis, 573
Sarcoidosis
active pulmonary, release of interleukin-1 by alveolar macrophages of patients with, 569
pulmonary
alveolar T-cell subsets in, 563
alveolitis of (correspondence), 343
comparison of gallium-67 scanning, bronchoalveolar lavage, and serum angiotensin-converting enzyme levels in, 676
staging of patients with, using gallium-67 scanning or bronchoalveolar lavage (correspondence), 343
relationship between disease duration and noninvasive pulmonary explorations in, with erythema nodosum, 938
Scanning, gallium-67
bronchoalveolar lavage, and serum angiotensin-conver[illegible] enzyme levels, comparison of, in pulmonary sarcoidosis, 676
use of, in staging patients with pulmonary sarcoidosis (correspondence), 343
SCH 28191, new polyene antifungal drug, compared with amphotericin B in experimental murine aspergillosis, 292
Silica, function and morphologic changes in lungs after single intratracheal instillation of, 833
Silicon carbide, pneumoconiosis in workers exposed to (case report), 635
Silicosis, experimental, regulation of lung fibroblast proliferation by alveolar macrophages in, 767
Sleep
abnormal respiratory pattern generation during, in patients with autonomic dysfunction (correspondence), 343, 510
apnea(s)
idiopathic obstructive, upper airway morphology in patients with, 355
obstructive
drug therapy for (correspondence), 648
electromyographic study of accessory muscles of respiration in children with, 696
impaired detection and added inspiratory resistance in patients with, 45
syndrome, obstructive, induction of, by exogenous androgen administration (case report), 1023
breathing and oxygenation during, does flurazepam ingestion affect, in patients with COPD, 230
effect of oxygen on, in cystic fibrosis, 712
night-to-night consistency of apneas during, 244
REM, paradox of, and maintenance of elevated FRC in newborn (editorial), 209
Smoke, wood, alterations in antibacterial properties of rabbit pulmonary macrophages exposed to, 76
Smokers
cigarette, ceruloplasmin increases serum concentration and impaired antioxidant activity in, 258
increased airway mucosal permeability of, in relation to airway reactivity, 143
Smoking
cigarette
and allergic rhinitis, combined effect of, on airway responsiveness to inhaled methacholine, 15
and short-term smoking cessation, effects of, on airway responsiveness to inhaled methacholine, 12
parental, and children's lung function, relationship between, 891
passive, gas cooking, and respiratory health of children in six cities, 366
South Indian patients, lack of relationship between hepatic toxicity and acetylator phenotype in 3,000, during treatment with isoniazid for tuberculosis, 58
Sputum
ELISA for quantitative measurement of low-molecular-weight bronchial protease inhibitor in, 959
production and flow rates in chronic bronchitis, correlation of morphologic findings to, 719
smears, acid-fast bacilli in, of patients with pulmonary tuberculosis, 264
Staphylococcus aureus
fifth component of complement is not required for clearance of, 597
and human platelets cause pulmonary hypertension and thromboxane generation in isolated saline-perfused rabbit lungs, 92
Starvation and elastase models of emphysema, comparison of, in rats, 584
Status asthmaticus, mechanically controlled hypoventilation in, 385
[illegible]roid treatment, effect of, on alveolar T-cell subsets in pul[illegible]rcoidosis, 563
Streptococcus pn[illegible]
antibiotic susceptibility [illegible] distribution of (Note), 1018
early pulmonary granulocyte recruitment in respo[illegible]
role of C5 in polymorphonuclear leukocyte recruitment in response to, 82
Sulfur dioxide
exposures at 5° and 22° C, comparative effects of, in exercising asthmatics, 234
-induced bronchitis, morphologic changes caused by, in dogs, 790
Surfactant
synthesis of developing fetal rat lungs, sex-related differences in cellular composition and, 130
system, mechanical and biochemical effect on, of methylprednisolone-increased toxicity of oxygen in mice, 805
Syndrome
acquired immune deficiency
and *Pneumocystis carinii* pneumonia, correlation between serial pulmonary function tests and fiberoptic bronchoscopy in patients with (concise clinical study), 491
diagnosis of *Pneumocystis carinii* pneumonia in patients with, using subsegmental bronchoalveolar lavage, 929
adult respiratory distress, granulocyte adhernece in pulmonary and systemic arterial blood samples from patients with, 798
emotional laryngeal wheezing (correspondence), 198
endogenous Cushing's, complicated by *Pneumocystis carinii* (case report), 188
obstructive sleep apnea, induction of, by exogenous androgen administration (case report), 1023
paraneoplastic, bilateral diaphragmatic paralysis as, from renal cell carcinoma (case report), 507
respiratory distress, in immature lambs, 979
Terbutaline, effect of subcutaneously administered, on serum potassium in asymptomatic asthmatics (concise clinical study), 329
Tetracycline, effects of cAMP, furosimide, and ouabain on transtracheally administered, in rat, 284
Theophylline
clearance, lack of effect of influenza vaccination and ascorbic acid on, 672
inhaled, antagonism of adenosine-induced bronchoconstriction

in asthma by, 380
kinetics, influence of hypercapnia and/or hypoxemia and metabolic acidosis on, in conscious rabbit, 762
Thoracotomy, exercise capacity as predictor of morbidity after, 730
Thromboxane generation, *Staphylococcus aureus* and human platelets cause, in isolated saline-perfused rabbit lungs, 92
Toluene diisocyanate vapor, inhalation of, hyperreactive airway smooth muscle responsiveness after, 296
Tracheobronchial gland profiles in four segmental airways, 985
Trasylol, protective effect of, in pancreatitis-induced increase in lung vascular permeability, 580
Trehalose dimycolate, pathogenesis of interstitial pneumonitis induced by, 840
Tremolite, fibrous, pulmonary changes after exposure to vermiculite contaminated with, 952
Triglyceride and free fatty acid content of *Mycobacterium avium* cultured under different growth conditions, 96
Tuberculosis
cutaneous, a case of primary or secondary? (correspondence), 881
lack of relationship between hepatic toxicity and acetylator phenotype in 3,000 South Indian patients during treatment with isoniazid for, 58
management of 30 immunocompromised patients with (concise clinical study), 494
and other mycobacterial diseases (correspondence), 510
pulmonary
acid-fast bacilli in sputum smears of patients with, 264
controlled clinical trial comparing 6-month and 12-month regimens in treatment of, in Algerian Sahara, 921
shortest possible acceptable effective chemotherapy in ambulatory patients with, 1016
six-month isoniazid-rifampin therapy for, 573
study of case-finding for, in outpatients complaining of chronic cough at district hospital in Kenya, 915
results of 12-month regimen for, in Peru, 439
Twins, adult, chemical and behavioral control of breathing in, 703
UCLA population studies of COPD
VI. Relationship of physiologic factors to rate of change in forced expiratory volume in one second and forced vital capacity, 533
VII. Relationship between parental smoking and children's lung function, 891
Ultrastructure
and ciliary motility in ciliary defects associated with development of bronchopulmonary dysplasia (case report), 190
nasal ciliary, in patients with primary ciliary dyskinesia compared with that in normal subjects and in subjects with various respiratory disease, 161
United States Public Health Service Cooperative Trial of six-month isoniazid-rifampin therapy for pulmonary tuberculosis, 573
Urine desmosine excretion (correspondence), 343, 510
Vaccination, influenza, lack of effect of, on theophylline clearance, 672
Vagal blockade, respiratory response to external resistive loads during, in awake dogs, 811
Vascular
disease
peripheral, S65
pulmonary, exercise testing to evaluate patients with, S93
permeability, lung, pancreatitis-induced increase in, protective effect of trasylol, 580
Vasculature, pulmonary, structure and function of, in mild COPD (correspondence), 1031
Vasoconstriction
acute hypoxic pulmonary, nifedipine attenuates, in awake piglets, 785
hypoxic pulmonary, nifedipine inhibits, during rest and exercise in patients with COPD, 544
Ventilation
effect of oxygen on, in cystic fibrosis, 712
and gas exchange during exercise in severe chronic heart failure, S63
high-frequency
influence of endotracheal tube on CO_2 transport during, 54
lung inflation during (Note), 333
nighttime, improves respiratory failure in secondary kyphoscoliosis, 240
Ventilator
circuits, mechanical, contaminated condensate in (concise clinical study), 625
molded body brace, treatment of life-threatening hypoventilation in kyphoscoliosis with (case report), 185
Ventilatory
control in patients with chronic obstructive pulmonary disease, familial aspects of, 3
regulation in eucapnic morbid obesity, 538
response to carbon dioxide, reducing, by breating cold air, 687
Ventricular function, left, two-dimensional echocardiographic assessment of, 135
Vermiculite contaminated with fibrous tremolite, pulmonary changes after exposure to, 952
Wheezing, emotional laryngeal, a new syndrome (correspondence), 198
Workers
asbestos-cement
mortality among, in Ontario, 754
radiographic abnormalities among, 17
coal, emphysema and dust exposure in, 528
cotton textile, pattern of lung function abnormalities in, 523
exposed to silicon carbide, pneumoconiosis in (case report), 635
